

## Ideas:

## Filter:

## Categorise:

normalised number of donations  
 ↓  
 percentage donation for each state  
 ↓  
 total number of donations  
 ↓  
 rank for each blood type and each state

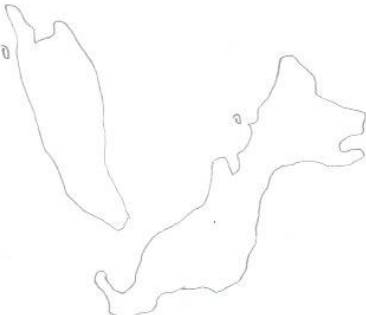

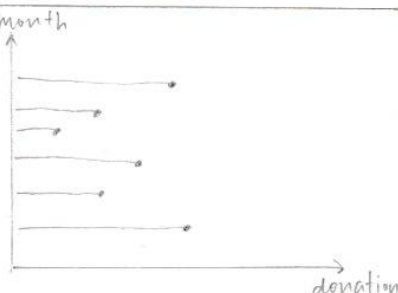

## Combine and Refine:

## Questions:

- Does this visualisation tell the intended story?
- Are these charts / graphs / map fulfill's clients needs?
- Can these show which blood type has the most donations?
- Is this too much or insufficient?

## Layout:

	colour of the state shows the number of donations per 10,000 people  curious how many blood donors we have?
	This graph can show the accurate amount of donation for a particular blood type
TITLE: INSIGHTS OF BLOOD DONATIONS	

## Focus:

Year: \_\_\_\_\_

Blood Type: \_\_\_\_\_

Number of Donations per 10,000 people: \_\_\_\_\_

TITLE: Blood Donations by States

AUTHOR: Hia Hung Xian

DATE: 25/09/2024

SHEET: 2

TASK: FIT3179

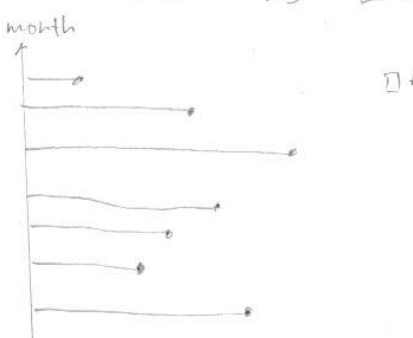

## Operations:

☐ 2016 2024 year or month  
Jan Dec

☐ A ☐ B ☐ AB ☐ O

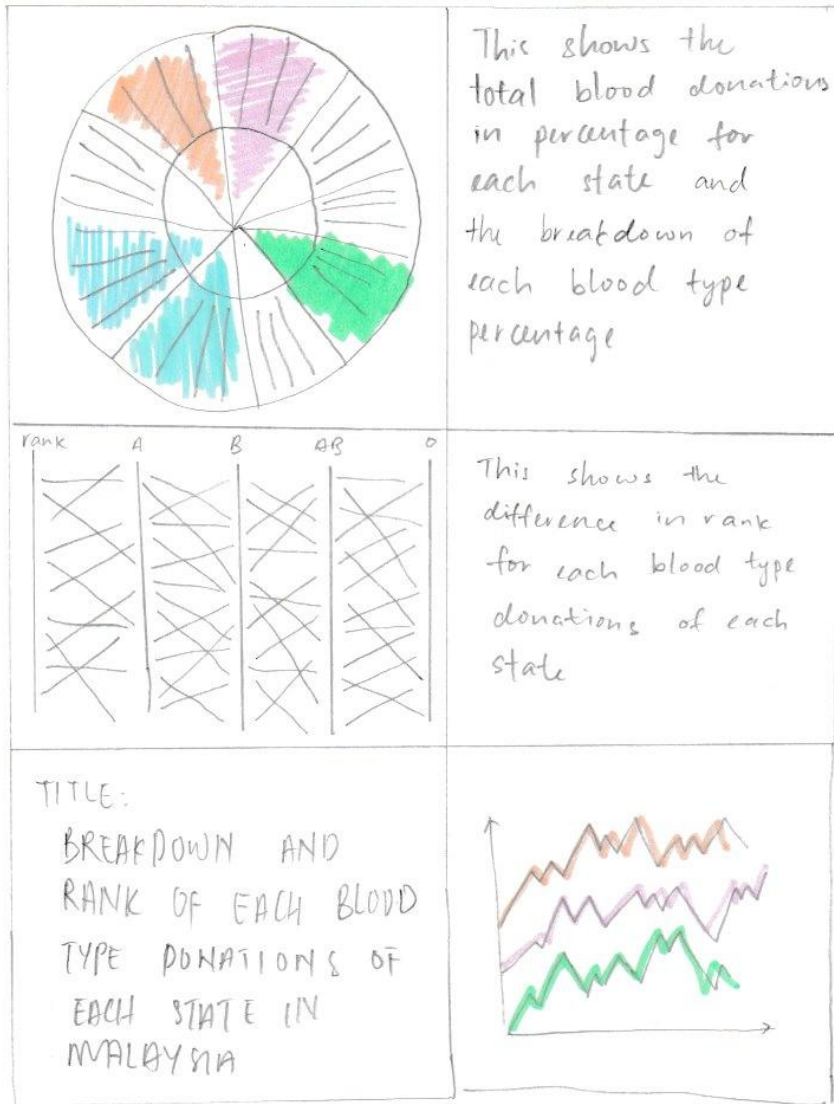

☐ ALL

## Discussions:

- Does the graphs / map provides insights to user?
- Are the information given and shown is what user needs / wants?
- Is there a need to give choices for each blood type for each state?

## Layout:

SHEET: 3

TASK: FIT 3179

Operations:

year  
2016 2024

month  
Jan Dec

☐ JHR ☐ TRG ☐ SLG ☐ PNG  
☐ MLK ☐ NS ☐ SBH ☐ BRK  
more states

## Discussion:

- Does the graph/chart shows which states has most blood donations and which blood type?
- Does this visualisation helps with identifying which blood type might require more donations?

## Layout:

density / hue of colour  
will indicate the  
number of donations  
per 10,000 people

curious about the  
number of donations  
per 10,000 people?

this waterfall chart  
can show the  
increase and decrease  
in number of  
donations for each  
month in the year  
for a particular state

TITLE:  
CHANGES IN THE  
NUMBER OF  
DONATIONS

## Focus:

year: \_\_\_\_  
state: \_\_\_\_  
bloodtype: all  
donation  
per 10,000 = \_\_\_\_  
people

year: \_\_\_\_  
month: \_\_\_\_  
state: \_\_\_\_  
bloodtype: \_\_\_\_  
donations: \_\_\_\_  
difference: \_\_\_\_
